HAIR SKIN BEAUTY

WEDDINGS

Appointments for weddings are different to standard or special occasion hair and makeup appointments. To ensure all of the appropriate considerations are available, a brief consultation is required to discuss your needs, ideas and duration of the day. Once the initial consultation is completed and your pre-payment is received, we will schedule your trials.

We apply the same attention to detail to your preparation as your dressmaker does. Hair and makeup trials must be undertaken for any bride appointment, so both you and your hair and makeup team members can both feel secure and prepared to create the exact look you desire.

PRE-PAYMENTS

Pre-payment in full is required for bridal appointments, \$240 for Bridal Hair Package (with trial) and \$400 for Bridal Hair and Makeup Package (with trials). This secures bookings for bridesmaids also.

Pre-payment is required to confirm your booking. Once pre-payment is received, the individual making the payment will receive their own card with the amount paid available. Present this at each appointment.

OTHER NOTES

Bridesmaids are required to attend with clean and dry hair and skin for any bridal hair and makeup appointments. Please note, we do not provide the bride's hair and makeup without a trial appointment. It is imperative that a trial is undertaken by the bride at least 10 days before your wedding day so we can ensure your preferences can be delivered on your special day.

Not all hair is suitable to some wedding hairstyles, so time is required to discuss and test your options. We recommend booking your trial in conjunction with your Hens Celebration - don't worry we will alter the final style to keep your wedding look a secret!
